day and discuss some of the President's suggestions for conserving energy.

Paley takes action

Also today, Urbana Mayor Hiram Paley instructed city department heads to devise ways of conserving energy.

"I have not read the statements of the President or the governor," Paley said, "but we

It's lights out on sports buffs who play in cold

President Nixon's plea to save energy means bad news to sports buffs who enjoy a game of tennis or softball—no matter what the weather.

Officials of both Champaign and Urbana park districts said today they are turning off the lights at city tennis courts and baseball and softball fields.

Robin Hall, director of the Urbana park district, went a few steps further by ordering the thermostat turned down to 68 degrees in the district offices and limiting district vehicles to only "necessary use."

pressive if council members could refrain from speaking in angry tones and attacking each other.

"These latter practices are rare, and from my own six years as an alderman I realize it is hard to contain oneself. Nevertheless I would ask each
