## CREATE YOUR OWN SOCIAL MOVEMENT

1. Name your social movement \_\_\_\_\_

2. Describe your movement.

*(What is the problem? What do you think should be different? How can change take place?)*

3. What do you hope will change because of your movement?

4. How does this cause relate to your lives?

5. Describe why somebody might disagree with your social movement.

**\*\*** Now, develop three ways that you can inform the public of your movement.

*Think about all the different ways you discovered being used in past social movements BUT remember there are new ways also. Provide a good selection of different ways!*

- A. Fill in the graphic organizer as a way to brainstorm what types of artifacts you will create.
- B. Create your artifacts using whatever materials you need to make this an effective message.
