

Of the People, By the People, For the People  
The Time Is Now

As you watch the presentation, you will stop to reflect on your own ideas about it.

What are people fighting for today?	
What does "Yes, We Can" mean to you?	
How did the use of social networks help Obama?	
Why did the grassroots workers want people to register to vote?	
How does music play a part in a grassroots movement?	
Why do you think the Hip Hop Caucus was started?	
After talking with a partner about issues that matter to you, write down 3 or 4 here.	
Write down 2 or 3 ideas for ways to get the message out about an issue that is important to you.
