Urbana High School Students Outperform State Average on ACT

For the fifth straight year Urbana High School students have scored higher than the state average on the ACT. The average composite score at Urbana High School was 21.8, and the state average was 20.5. The report from ACT also indicates a higher percentage of Urbana High School students are ready for college-level coursework compared to the state average.

The ACT surveys student knowledge in English, Mathematics, Reading, and Science. Urbana High School students scored higher than the state average in all subjects.

Urbana High School Principal Dr. Laura Taylor says, "We are very pleased with the continuing success Urbana High School students are demonstrating on the ACT in addition to their progress in other academic areas. Our plan is to continue our efforts to support all areas of our students' development."

For more information about the ACT report for Urbana High School, please contact Dr. Taylor at 384-3505.
